

WEBVTT

NOTE duration:"00:18:30"

NOTE recognizability:0.907

NOTE language:en-us

NOTE Confidence: 0.875389152

00:00:00.000 --> 00:00:01.980 We're very honored to have

NOTE Confidence: 0.875389152

00:00:01.980 --> 00:00:03.960 Doctor McGovern join us today.

NOTE Confidence: 0.875389152

00:00:03.960 --> 00:00:06.060 Doctor McGovern received her PhD in

NOTE Confidence: 0.875389152

00:00:06.060 --> 00:00:08.240 Genetics from the Mount Sinai Graduate

NOTE Confidence: 0.875389152

00:00:08.240 --> 00:00:10.376 School of Biomedical Sciences and her

NOTE Confidence: 0.875389152

00:00:10.376 --> 00:00:12.996 MD from Mount Sinai School of Medicine.

NOTE Confidence: 0.875389152

00:00:13.000 --> 00:00:16.078 She completed her residency in Pediatric

NOTE Confidence: 0.875389152

00:00:16.080 --> 00:00:18.165 Pediatrics and Fellowship in Clinical

NOTE Confidence: 0.875389152

00:00:18.165 --> 00:00:20.680 and Molecular Genetics at Mount Sinai.

NOTE Confidence: 0.875389152

00:00:20.680 --> 00:00:21.964 Before joining Yale, Dr.

NOTE Confidence: 0.875389152

00:00:21.964 --> 00:00:23.890 McGovern was the NAP Professor of

NOTE Confidence: 0.875389152

00:00:23.947 --> 00:00:26.101 Pediatrics and Dean of Clinical Affairs

NOTE Confidence: 0.875389152

00:00:26.101 --> 00:00:28.175 at the Renaissance School of Medicine

NOTE Confidence: 0.875389152

00:00:28.175 --> 00:00:29.897 at Stony Brook and vice president  
NOTE Confidence: 0.875389152

00:00:29.897 --> 00:00:32.648 of the Stony Brook Medicine Health  
NOTE Confidence: 0.875389152

00:00:32.648 --> 00:00:35.358 System Clinical Programs and Strategy.  
NOTE Confidence: 0.875389152

00:00:35.360 --> 00:00:37.240 Prior to assuming those roles,  
NOTE Confidence: 0.875389152

00:00:37.240 --> 00:00:39.697 in 2018 she was chair of Pediatrics  
NOTE Confidence: 0.875389152

00:00:39.697 --> 00:00:42.212 and Physician in chief at Stony  
NOTE Confidence: 0.875389152

00:00:42.212 --> 00:00:43.598 Brook Children's Hospital.  
NOTE Confidence: 0.875389152

00:00:43.600 --> 00:00:44.350 In 2022,  
NOTE Confidence: 0.875389152

00:00:44.350 --> 00:00:46.225 Doctor McGovern was appointed the  
NOTE Confidence: 0.875389152

00:00:46.225 --> 00:00:48.192 deputy Dean for clinical affairs  
NOTE Confidence: 0.875389152

00:00:48.192 --> 00:00:50.520 at the Yale School of Medicine,  
NOTE Confidence: 0.875389152

00:00:50.520 --> 00:00:52.625 the Chief Executive Officer of  
NOTE Confidence: 0.875389152

00:00:52.625 --> 00:00:54.730 Yale Medicine and the executive  
NOTE Confidence: 0.875389152

00:00:54.807 --> 00:00:57.104 Vice president and chief physician  
NOTE Confidence: 0.875389152

00:00:57.104 --> 00:00:59.792 executive for Yale New Haven Health.  
NOTE Confidence: 0.875389152

00:00:59.800 --> 00:01:01.968 And so we are so lucky and fortunate

NOTE Confidence: 0.875389152

00:01:01.968 --> 00:01:03.679 to have her join us today.

NOTE Confidence: 0.956489209

00:01:09.640 --> 00:01:11.440 Thank you. And thanks for

NOTE Confidence: 0.956489209

00:01:11.440 --> 00:01:13.491 inviting me to talk and be

NOTE Confidence: 0.956489209

00:01:13.491 --> 00:01:14.997 the final speaker of the day.

NOTE Confidence: 0.956489209

00:01:15.000 --> 00:01:17.079 But you're all still alert and awake,

NOTE Confidence: 0.956489209

00:01:17.080 --> 00:01:18.160 so this is a good sign.

NOTE Confidence: 0.93554943

00:01:21.320 --> 00:01:23.480 I'm going to tell you a little bit about

NOTE Confidence: 0.93554943

00:01:23.480 --> 00:01:25.523 some of the work we've been doing over

NOTE Confidence: 0.93554943

00:01:25.523 --> 00:01:28.412 the past year to better support clinical

NOTE Confidence: 0.93554943

00:01:28.412 --> 00:01:30.334 research throughout the enterprise.

NOTE Confidence: 0.93554943

00:01:30.334 --> 00:01:32.469 So inclusive of the school

NOTE Confidence: 0.93554943

00:01:32.469 --> 00:01:34.360 and the health system.

NOTE Confidence: 0.93554943

00:01:34.360 --> 00:01:38.490 And this is, was identified as a

NOTE Confidence: 0.93554943

00:01:38.490 --> 00:01:40.360 pillar of alignment between the School

NOTE Confidence: 0.93554943

00:01:40.360 --> 00:01:42.000 of Medicine and the health system,

NOTE Confidence: 0.93554943

00:01:42.000 --> 00:01:44.645 an important pillar to leverage  
NOTE Confidence: 0.93554943

00:01:44.645 --> 00:01:46.761 the intellectual infrastructure and  
NOTE Confidence: 0.93554943

00:01:46.761 --> 00:01:48.950 innovation and the efforts of the  
NOTE Confidence: 0.93554943

00:01:48.950 --> 00:01:51.412 faculty in the School of Medicine and  
NOTE Confidence: 0.93554943

00:01:51.412 --> 00:01:53.428 bring the findings that you all make to  
NOTE Confidence: 0.93554943

00:01:53.428 --> 00:01:55.452 the bedside of the patients that are  
NOTE Confidence: 0.93554943

00:01:55.452 --> 00:01:57.399 cared for within the health system.  
NOTE Confidence: 0.93554943

00:01:57.400 --> 00:02:00.275 So the rationale for this  
NOTE Confidence: 0.93554943

00:02:00.275 --> 00:02:02.000 joint strategic approach,  
NOTE Confidence: 0.93554943

00:02:02.000 --> 00:02:03.296 I find it interesting that we had to have  
NOTE Confidence: 0.93554943

00:02:03.296 --> 00:02:04.718 a rationale that is completely obvious.  
NOTE Confidence: 0.93554943

00:02:04.720 --> 00:02:06.036 We should be doing this work together.  
NOTE Confidence: 0.93554943

00:02:06.040 --> 00:02:08.008 But the rationale to drive this  
NOTE Confidence: 0.93554943

00:02:08.008 --> 00:02:09.320 work because historically this,  
NOTE Confidence: 0.93554943

00:02:09.320 --> 00:02:11.685 this wasn't really the philosophy  
NOTE Confidence: 0.93554943

00:02:11.685 --> 00:02:14.104 here is to support the health system

NOTE Confidence: 0.93554943

00:02:14.104 --> 00:02:16.271 and the school's common mission of

NOTE Confidence: 0.93554943

00:02:16.271 --> 00:02:18.301 innovation in the development of

NOTE Confidence: 0.93554943

00:02:18.301 --> 00:02:20.232 preventive diagnostic and therapeutic

NOTE Confidence: 0.93554943

00:02:20.232 --> 00:02:22.300 modalities and improve systems of

NOTE Confidence: 0.93554943

00:02:22.300 --> 00:02:24.075 care to enhance health outcomes

NOTE Confidence: 0.93554943

00:02:24.075 --> 00:02:25.958 for populations of patients.

NOTE Confidence: 0.93554943

00:02:25.960 --> 00:02:28.045 Also to improve patient outcomes

NOTE Confidence: 0.93554943

00:02:28.045 --> 00:02:29.713 by accelerating the implementation

NOTE Confidence: 0.93554943

00:02:29.713 --> 00:02:31.778 of innovative new diagnostic

NOTE Confidence: 0.93554943

00:02:31.778 --> 00:02:33.359 and therapeutic approaches.

NOTE Confidence: 0.93554943

00:02:33.360 --> 00:02:35.838 I think we have huge opportunity here.

NOTE Confidence: 0.93554943

00:02:35.840 --> 00:02:38.252 The keyword in this one being

NOTE Confidence: 0.93554943

00:02:38.252 --> 00:02:40.640 accelerating that we should be nimble,

NOTE Confidence: 0.93554943

00:02:40.640 --> 00:02:43.120 we should have these systems in place to

NOTE Confidence: 0.93554943

00:02:43.120 --> 00:02:45.120 bring to the bedside discoveries that

NOTE Confidence: 0.93554943

00:02:45.120 --> 00:02:48.358 we make here in our own School of Medicine.

NOTE Confidence: 0.93554943

00:02:48.360 --> 00:02:49.896 You know one frankly that sticks

NOTE Confidence: 0.93554943

00:02:49.896 --> 00:02:51.830 out of my mind was the development

NOTE Confidence: 0.93554943

00:02:51.830 --> 00:02:55.316 of the drug here to delay the onset

NOTE Confidence: 0.93554943

00:02:55.316 --> 00:02:58.320 of diabetes in in children.

NOTE Confidence: 0.93554943

00:02:58.320 --> 00:02:59.728 And we were not the first people in

NOTE Confidence: 0.93554943

00:02:59.728 --> 00:03:01.280 the country to give that drug to a patient.

NOTE Confidence: 0.93554943

00:03:01.280 --> 00:03:05.110 So that's our lack of nimbleness to be

NOTE Confidence: 0.93554943

00:03:05.110 --> 00:03:06.755 able to stand up a program supported,

NOTE Confidence: 0.93554943

00:03:06.760 --> 00:03:07.438 get it done,

NOTE Confidence: 0.93554943

00:03:07.438 --> 00:03:08.794 get it over the finish line.

NOTE Confidence: 0.93554943

00:03:08.800 --> 00:03:10.120 And I know we can do this work.

NOTE Confidence: 0.93554943

00:03:10.120 --> 00:03:12.397 We just have to have the systems in place.

NOTE Confidence: 0.93554943

00:03:12.400 --> 00:03:15.438 And then of course to increase access

NOTE Confidence: 0.93554943

00:03:15.440 --> 00:03:18.128 to patients who were seeking enrollment

NOTE Confidence: 0.93554943

00:03:18.128 --> 00:03:19.920 in clinical research protocols.

NOTE Confidence: 0.927250513333333

00:03:22.080 --> 00:03:24.390 Also to increase recruitment and

NOTE Confidence: 0.927250513333333

00:03:24.390 --> 00:03:26.238 retention of outstanding clinicians,

NOTE Confidence: 0.927250513333333

00:03:26.240 --> 00:03:28.928 staff and trainees by providing these

NOTE Confidence: 0.927250513333333

00:03:28.928 --> 00:03:31.126 opportunities to innovate and making

NOTE Confidence: 0.927250513333333

00:03:31.126 --> 00:03:33.798 it easy for them to see their work

NOTE Confidence: 0.927250513333333

00:03:33.798 --> 00:03:36.078 realized in the clinical environment.

NOTE Confidence: 0.927250513333333

00:03:36.080 --> 00:03:38.480 And I've spoken to a lot of mid

NOTE Confidence: 0.927250513333333

00:03:38.480 --> 00:03:40.355 career faculty in the 8-9 to 20

NOTE Confidence: 0.927250513333333

00:03:40.355 --> 00:03:42.360 months or so that I've been here.

NOTE Confidence: 0.927250513333333

00:03:42.360 --> 00:03:44.568 And I've heard from many of them that

NOTE Confidence: 0.927250513333333

00:03:44.568 --> 00:03:47.322 this is they find it very difficult to

NOTE Confidence: 0.927250513333333

00:03:47.322 --> 00:03:49.399 navigate our complex health system to

NOTE Confidence: 0.927250513333333

00:03:49.399 --> 00:03:51.751 bring to the bedside or to bring their

NOTE Confidence: 0.927250513333333

00:03:51.760 --> 00:03:53.560 programs or their ideas to fruition.

NOTE Confidence: 0.927250513333333

00:03:53.560 --> 00:03:55.584 And we really have to do a better

NOTE Confidence: 0.927250513333333

00:03:55.584 --> 00:03:58.600 job with that on the clinical side  
NOTE Confidence: 0.9272505133333333

00:03:58.600 --> 00:04:01.312 also to devote some attention to  
NOTE Confidence: 0.9272505133333333

00:04:01.312 --> 00:04:03.120 increasing industry sponsored clinical  
NOTE Confidence: 0.9272505133333333

00:04:03.189 --> 00:04:05.289 research to provide all relevant  
NOTE Confidence: 0.9272505133333333

00:04:05.289 --> 00:04:07.809 trial modalities for our patients and  
NOTE Confidence: 0.9272505133333333

00:04:07.809 --> 00:04:09.700 balance our clinical research finances  
NOTE Confidence: 0.9272505133333333

00:04:09.700 --> 00:04:11.625 to release more opportunities for  
NOTE Confidence: 0.9272505133333333

00:04:11.625 --> 00:04:13.639 highly innovative research projects.  
NOTE Confidence: 0.9272505133333333

00:04:13.640 --> 00:04:15.872 So you know like in most things in life,  
NOTE Confidence: 0.9272505133333333

00:04:15.880 --> 00:04:18.400 one also has to be fiscally responsible,  
NOTE Confidence: 0.9272505133333333

00:04:18.400 --> 00:04:20.600 have financial models that are  
NOTE Confidence: 0.9272505133333333

00:04:20.600 --> 00:04:22.652 sustainable and diversifying our research  
NOTE Confidence: 0.9272505133333333

00:04:22.652 --> 00:04:25.480 portfolio is another way to do that.  
NOTE Confidence: 0.9272505133333333

00:04:25.480 --> 00:04:27.769 Want to leverage the broad diversity of  
NOTE Confidence: 0.9272505133333333

00:04:27.769 --> 00:04:29.458 academic strength across the university  
NOTE Confidence: 0.9272505133333333

00:04:29.458 --> 00:04:31.430 and health system and enhance clinical

NOTE Confidence: 0.927250513333333

00:04:31.430 --> 00:04:33.740 value in systems of care through research

NOTE Confidence: 0.927250513333333

00:04:33.800 --> 00:04:35.880 related to healthcare delivery science.

NOTE Confidence: 0.927250513333333

00:04:35.880 --> 00:04:38.519 So there was a work group constituted

NOTE Confidence: 0.927250513333333

00:04:38.520 --> 00:04:42.120 to take these rationale and principles

NOTE Confidence: 0.927250513333333

00:04:42.120 --> 00:04:46.420 and try to bring life to them in

NOTE Confidence: 0.927250513333333

00:04:46.420 --> 00:04:49.354 meaningful ways that would impact how we

NOTE Confidence: 0.927250513333333

00:04:49.354 --> 00:04:50.873 do this work across the health system.

NOTE Confidence: 0.927250513333333

00:04:50.880 --> 00:04:53.244 And this was a collaborative effort

NOTE Confidence: 0.927250513333333

00:04:53.244 --> 00:04:56.013 with Brian Smith and Dave Coleman and

NOTE Confidence: 0.927250513333333

00:04:56.013 --> 00:04:58.624 Yolanda London who did a stellar job

NOTE Confidence: 0.927250513333333

00:04:58.698 --> 00:05:01.260 helping to coordinate this group on one

NOTE Confidence: 0.927250513333333

00:05:01.260 --> 00:05:03.720 of the first things we went out with,

NOTE Confidence: 0.927250513333333

00:05:03.720 --> 00:05:05.550 which was trying to wrestle the

NOTE Confidence: 0.927250513333333

00:05:05.550 --> 00:05:07.519 issue of having a single IRB.

NOTE Confidence: 0.927250513333333

00:05:07.520 --> 00:05:11.212 But there is a whole work plan for this

NOTE Confidence: 0.927250513333333

00:05:11.212 --> 00:05:13.830 that this group developed to really  
NOTE Confidence: 0.9272505133333333

00:05:13.830 --> 00:05:16.347 figure out how do we do a better job  
NOTE Confidence: 0.9272505133333333

00:05:16.347 --> 00:05:18.412 in Bend embedding clinical research  
NOTE Confidence: 0.9272505133333333

00:05:18.412 --> 00:05:20.920 activities into our practice environments.  
NOTE Confidence: 0.9272505133333333

00:05:20.920 --> 00:05:23.008 I've also met a lot of you who are  
NOTE Confidence: 0.9272505133333333

00:05:23.008 --> 00:05:24.798 looking for spaces to bring your  
NOTE Confidence: 0.9272505133333333

00:05:24.798 --> 00:05:26.656 research patients in a proper clinical  
NOTE Confidence: 0.9272505133333333

00:05:26.656 --> 00:05:28.480 environment where it's not just a  
NOTE Confidence: 0.9272505133333333

00:05:28.480 --> 00:05:30.328 room with no windows and no sink,  
NOTE Confidence: 0.9272505133333333

00:05:30.328 --> 00:05:32.559 but it's a proper place to bring a patient,  
NOTE Confidence: 0.9272505133333333

00:05:32.560 --> 00:05:35.000 which is what we need to be doing.  
NOTE Confidence: 0.9272505133333333

00:05:35.000 --> 00:05:36.420 And everyone trying to figure  
NOTE Confidence: 0.9272505133333333

00:05:36.420 --> 00:05:37.840 that that out for themselves,  
NOTE Confidence: 0.9272505133333333

00:05:37.840 --> 00:05:39.946 which you know is really unnecessary  
NOTE Confidence: 0.9272505133333333

00:05:39.946 --> 00:05:42.668 if we could get it together to  
NOTE Confidence: 0.9272505133333333

00:05:42.668 --> 00:05:43.916 identify these spaces,

NOTE Confidence: 0.927250513333333

00:05:43.920 --> 00:05:46.032 you know strategically place them across

NOTE Confidence: 0.927250513333333

00:05:46.032 --> 00:05:48.359 our geography in our outpatient locations

NOTE Confidence: 0.927250513333333

00:05:48.359 --> 00:05:50.915 available to any investigator to come.

NOTE Confidence: 0.927250513333333

00:05:50.920 --> 00:05:53.404 So everyone's not sort of trying

NOTE Confidence: 0.927250513333333

00:05:53.404 --> 00:05:56.279 to create that for themselves and

NOTE Confidence: 0.927250513333333

00:05:56.280 --> 00:05:58.233 with great difficulty I might add in

NOTE Confidence: 0.927250513333333

00:05:58.233 --> 00:05:59.766 great expense and sometimes bringing

NOTE Confidence: 0.927250513333333

00:05:59.766 --> 00:06:02.006 patients to places that you know you

NOTE Confidence: 0.927250513333333

00:06:02.006 --> 00:06:03.676 really don't want to bring them,

NOTE Confidence: 0.927250513333333

00:06:03.680 --> 00:06:05.866 you know they should come to a a setting

NOTE Confidence: 0.927250513333333

00:06:05.866 --> 00:06:07.996 that's like any clinical setting.

NOTE Confidence: 0.927250513333333

00:06:08.000 --> 00:06:11.012 They'd go for their care so that

NOTE Confidence: 0.927250513333333

00:06:11.012 --> 00:06:13.154 you have all of that respect and

NOTE Confidence: 0.927250513333333

00:06:13.154 --> 00:06:14.548 infrastructure built into the

NOTE Confidence: 0.927250513333333

00:06:14.548 --> 00:06:17.840 encounter with your research patients.

NOTE Confidence: 0.927250513333333

00:06:17.840 --> 00:06:20.210 So some of the strategic objectives  
NOTE Confidence: 0.927250513333333

00:06:20.210 --> 00:06:23.304 of this work group were to create a  
NOTE Confidence: 0.927250513333333

00:06:23.304 --> 00:06:24.840 governance structure to facilitate  
NOTE Confidence: 0.855387948

00:06:24.904 --> 00:06:26.836 and coordinate clinical research  
NOTE Confidence: 0.855387948

00:06:26.836 --> 00:06:29.099 across the entire enterprise,  
NOTE Confidence: 0.855387948

00:06:29.099 --> 00:06:30.878 build extended infrastructure  
NOTE Confidence: 0.855387948

00:06:30.878 --> 00:06:33.250 to support clinical research  
NOTE Confidence: 0.855387948

00:06:33.324 --> 00:06:35.520 throughout our catchment area,  
NOTE Confidence: 0.855387948

00:06:35.520 --> 00:06:37.300 enhance discovery through strength  
NOTE Confidence: 0.855387948

00:06:37.300 --> 00:06:38.635 and biomedical informatics,  
NOTE Confidence: 0.855387948

00:06:38.640 --> 00:06:40.840 data science and precision medicine.  
NOTE Confidence: 0.855387948

00:06:40.840 --> 00:06:43.108 Sort of getting to Holland's comment about  
NOTE Confidence: 0.855387948

00:06:43.108 --> 00:06:45.159 getting access to data and how do we,  
NOTE Confidence: 0.855387948

00:06:45.160 --> 00:06:48.200 how do we clear the path for that to happen?  
NOTE Confidence: 0.855387948

00:06:48.200 --> 00:06:49.320 Doing it in a safe,  
NOTE Confidence: 0.855387948

00:06:49.320 --> 00:06:50.715 responsible, compliant way,

NOTE Confidence: 0.855387948

00:06:50.715 --> 00:06:53.505 but not putting so many barriers

NOTE Confidence: 0.855387948

00:06:53.505 --> 00:06:56.019 in place that it makes it very,

NOTE Confidence: 0.855387948

00:06:56.019 --> 00:06:57.714 very difficult for people to

NOTE Confidence: 0.855387948

00:06:57.714 --> 00:06:59.393 access information they need to

NOTE Confidence: 0.855387948

00:06:59.393 --> 00:07:01.217 do their research and foster an

NOTE Confidence: 0.855387948

00:07:01.217 --> 00:07:02.912 understanding of an engagement and

NOTE Confidence: 0.855387948

00:07:02.912 --> 00:07:04.600 research across the health system.

NOTE Confidence: 0.855387948

00:07:04.600 --> 00:07:08.040 We've got, we've got a fair bit to do there.

NOTE Confidence: 0.855387948

00:07:08.040 --> 00:07:10.380 You know the leadership in the

NOTE Confidence: 0.855387948

00:07:10.380 --> 00:07:12.540 health system is has not been well

NOTE Confidence: 0.855387948

00:07:12.540 --> 00:07:14.160 connected back to what goes on,

NOTE Confidence: 0.855387948

00:07:14.160 --> 00:07:15.624 what goes on across the street

NOTE Confidence: 0.855387948

00:07:15.624 --> 00:07:16.356 and school medicine.

NOTE Confidence: 0.855387948

00:07:16.360 --> 00:07:18.355 What are those faculty doing all day?

NOTE Confidence: 0.855387948

00:07:18.360 --> 00:07:20.586 And they really need to gain an

NOTE Confidence: 0.855387948

00:07:20.586 --> 00:07:22.399 appreciation of what your work is,  
NOTE Confidence: 0.855387948

00:07:22.400 --> 00:07:24.600 how you spend your time,  
NOTE Confidence: 0.855387948

00:07:24.600 --> 00:07:26.913 what it takes to write in an IH grant,  
NOTE Confidence: 0.855387948

00:07:26.920 --> 00:07:29.688 which is a huge piece of work and and  
NOTE Confidence: 0.855387948

00:07:29.688 --> 00:07:31.816 to really understand the power of the  
NOTE Confidence: 0.855387948

00:07:31.816 --> 00:07:33.878 research that's going on in the school.  
NOTE Confidence: 0.855387948

00:07:33.880 --> 00:07:34.384 And I think,  
NOTE Confidence: 0.855387948

00:07:34.384 --> 00:07:34.720 you know,  
NOTE Confidence: 0.855387948

00:07:34.720 --> 00:07:36.925 there's been a lot of progress made  
NOTE Confidence: 0.855387948

00:07:36.925 --> 00:07:38.908 as we've been taking this alignment  
NOTE Confidence: 0.855387948

00:07:38.908 --> 00:07:41.218 path at one of the health system  
NOTE Confidence: 0.855387948

00:07:41.218 --> 00:07:43.312 board meetings as there was a  
NOTE Confidence: 0.855387948

00:07:43.312 --> 00:07:44.997 session actually you spoke at it,  
NOTE Confidence: 0.855387948

00:07:45.000 --> 00:07:45.468 you know,  
NOTE Confidence: 0.855387948

00:07:45.468 --> 00:07:46.638 about what what innovation and  
NOTE Confidence: 0.855387948

00:07:46.638 --> 00:07:48.078 science is going on in the school.

NOTE Confidence: 0.855387948

00:07:48.080 --> 00:07:49.745 That was I think one of the most popular

NOTE Confidence: 0.855387948

00:07:49.745 --> 00:07:51.474 things the trustees had heard in a long time.

NOTE Confidence: 0.855387948

00:07:51.480 --> 00:07:53.598 They were very excited by this.

NOTE Confidence: 0.855387948

00:07:53.600 --> 00:07:54.904 It was like wow,

NOTE Confidence: 0.855387948

00:07:54.904 --> 00:07:55.556 you know,

NOTE Confidence: 0.855387948

00:07:55.560 --> 00:07:57.919 this is right here and we haven't

NOTE Confidence: 0.855387948

00:07:57.919 --> 00:07:59.679 been leveraging and capitalizing on

NOTE Confidence: 0.855387948

00:07:59.679 --> 00:08:01.636 it and you know, and celebrating,

NOTE Confidence: 0.855387948

00:08:01.636 --> 00:08:04.020 you know this work and how we can

NOTE Confidence: 0.855387948

00:08:04.082 --> 00:08:06.000 bring it to the bedside of the

NOTE Confidence: 0.855387948

00:08:06.000 --> 00:08:07.960 patients in our own health system.

NOTE Confidence: 0.855387948

00:08:07.960 --> 00:08:11.262 And it's not just you know, patient,

NOTE Confidence: 0.855387948

00:08:11.262 --> 00:08:12.838 direct, patient oriented research.

NOTE Confidence: 0.855387948

00:08:12.840 --> 00:08:13.188 You know,

NOTE Confidence: 0.855387948

00:08:13.188 --> 00:08:14.580 I've heard a lot about some of the

NOTE Confidence: 0.855387948

00:08:14.628 --> 00:08:16.098 work that goes on in our division  
NOTE Confidence: 0.855387948

00:08:16.098 --> 00:08:17.145 of general internal medicine and  
NOTE Confidence: 0.855387948

00:08:17.145 --> 00:08:18.447 some of the work that they do  
NOTE Confidence: 0.855387948

00:08:18.447 --> 00:08:20.398 that nationally is recognized,  
NOTE Confidence: 0.855387948

00:08:20.398 --> 00:08:23.328 embraced and integrated into thinking  
NOTE Confidence: 0.855387948

00:08:23.328 --> 00:08:25.003 about planning for healthcare.  
NOTE Confidence: 0.855387948

00:08:25.003 --> 00:08:27.169 And a lot of those initiatives  
NOTE Confidence: 0.855387948

00:08:27.169 --> 00:08:28.720 we don't deploy here.  
NOTE Confidence: 0.855387948

00:08:28.720 --> 00:08:29.464 I mean you know,  
NOTE Confidence: 0.855387948

00:08:29.464 --> 00:08:30.394 this doesn't really make sense.  
NOTE Confidence: 0.855387948

00:08:30.400 --> 00:08:31.870 So we have to line these things  
NOTE Confidence: 0.855387948

00:08:31.870 --> 00:08:32.959 up better that you know,  
NOTE Confidence: 0.855387948

00:08:32.960 --> 00:08:35.054 we're really leveraging all of the  
NOTE Confidence: 0.855387948

00:08:35.054 --> 00:08:37.558 assets that we have at our disposal.  
NOTE Confidence: 0.855387948

00:08:37.560 --> 00:08:40.297 So the specific goals of this work  
NOTE Confidence: 0.855387948

00:08:40.297 --> 00:08:42.720 group or you know to develop governance,

NOTE Confidence: 0.855387948

00:08:42.720 --> 00:08:45.522 you need strong governance to make

NOTE Confidence: 0.855387948

00:08:45.522 --> 00:08:48.278 something sustainable and to get buy in.

NOTE Confidence: 0.855387948

00:08:48.280 --> 00:08:50.215 So the governance structure proposed

NOTE Confidence: 0.855387948

00:08:50.215 --> 00:08:52.687 is a joint clinical research strategic

NOTE Confidence: 0.855387948

00:08:52.687 --> 00:08:55.266 planning group charging YCCI which

NOTE Confidence: 0.855387948

00:08:55.266 --> 00:08:58.518 is of course the school program

NOTE Confidence: 0.855387948

00:08:58.520 --> 00:09:00.168 with supporting clinical research

NOTE Confidence: 0.855387948

00:09:00.168 --> 00:09:02.228 functions across the entire health

NOTE Confidence: 0.855387948

00:09:02.228 --> 00:09:04.784 system and having that clinical

NOTE Confidence: 0.855387948

00:09:04.784 --> 00:09:06.608 research space planning group that

NOTE Confidence: 0.855387948

00:09:06.608 --> 00:09:08.923 would do what I referenced go out

NOTE Confidence: 0.855387948

00:09:08.923 --> 00:09:10.855 and find what are the appropriate

NOTE Confidence: 0.855387948

00:09:10.855 --> 00:09:12.719 locations to have that touchdown

NOTE Confidence: 0.855387948

00:09:12.719 --> 00:09:14.395 space for research patients.

NOTE Confidence: 0.907331009285714

00:09:14.400 --> 00:09:16.108 Or maybe you need some you know

NOTE Confidence: 0.907331009285714

00:09:16.108 --> 00:09:17.797 small lab area in some of these,  
NOTE Confidence: 0.907331009285714

00:09:17.800 --> 00:09:19.822 some of these locations and really  
NOTE Confidence: 0.907331009285714

00:09:19.822 --> 00:09:21.878 understand what are the needs of  
NOTE Confidence: 0.907331009285714

00:09:21.878 --> 00:09:23.503 our clinical investigators and help  
NOTE Confidence: 0.907331009285714

00:09:23.503 --> 00:09:25.760 try to meet those needs and do it  
NOTE Confidence: 0.907331009285714

00:09:25.760 --> 00:09:28.600 in a geographically dispersed way.  
NOTE Confidence: 0.907331009285714

00:09:28.600 --> 00:09:29.972 So that patients don't have to all  
NOTE Confidence: 0.907331009285714

00:09:29.972 --> 00:09:31.231 travel into New Haven or travel  
NOTE Confidence: 0.907331009285714

00:09:31.231 --> 00:09:32.479 to your one location that you're  
NOTE Confidence: 0.907331009285714

00:09:32.479 --> 00:09:33.518 able to sort of stand up.  
NOTE Confidence: 0.907331009285714

00:09:33.520 --> 00:09:36.144 But you can go out and recruit patients  
NOTE Confidence: 0.907331009285714

00:09:36.144 --> 00:09:39.960 from lots of locations for infrastructure  
NOTE Confidence: 0.907331009285714

00:09:39.960 --> 00:09:41.913 is what ruined my life for a few months,  
NOTE Confidence: 0.907331009285714

00:09:41.920 --> 00:09:44.594 helped try to create a single system  
NOTE Confidence: 0.907331009285714

00:09:44.594 --> 00:09:46.600 wide Institutional Review Board and  
NOTE Confidence: 0.907331009285714

00:09:46.600 --> 00:09:49.000 oversight structure for all aspects

NOTE Confidence: 0.907331009285714  
00:09:49.000 --> 00:09:51.340 related to HRPP and leveraging  
NOTE Confidence: 0.907331009285714  
00:09:51.340 --> 00:09:53.200 the investments in YCCI.  
NOTE Confidence: 0.907331009285714  
00:09:53.200 --> 00:09:56.080 We had about 1000 meetings about this topic.  
NOTE Confidence: 0.907331009285714  
00:09:56.080 --> 00:09:57.718 But I am incredibly happy to report  
NOTE Confidence: 0.907331009285714  
00:09:57.718 --> 00:09:59.517 we got this over the finish line.  
NOTE Confidence: 0.907331009285714  
00:09:59.520 --> 00:10:00.282 This is happening.  
NOTE Confidence: 0.907331009285714  
00:10:00.282 --> 00:10:02.559 You're going to be hearing a lot about it.  
NOTE Confidence: 0.907331009285714  
00:10:02.560 --> 00:10:03.556 It was a lot of work.  
NOTE Confidence: 0.907331009285714  
00:10:03.560 --> 00:10:05.240 Obviously there were legal, regulatory,  
NOTE Confidence: 0.907331009285714  
00:10:05.240 --> 00:10:07.280 compliance, all sorts of issues.  
NOTE Confidence: 0.907331009285714  
00:10:07.280 --> 00:10:08.728 There are cultural issues,  
NOTE Confidence: 0.907331009285714  
00:10:08.728 --> 00:10:10.900 there are issues related to how  
NOTE Confidence: 0.907331009285714  
00:10:10.971 --> 00:10:13.155 siloed we are across our hospitals.  
NOTE Confidence: 0.907331009285714  
00:10:13.160 --> 00:10:15.404 There are proprietary issues and people  
NOTE Confidence: 0.907331009285714  
00:10:15.404 --> 00:10:17.758 feeling like they own this or that.  
NOTE Confidence: 0.907331009285714

00:10:17.760 --> 00:10:19.584 Somehow we'll mess it up by  
NOTE Confidence: 0.907331009285714  
00:10:19.584 --> 00:10:21.679 by making it a single IRB.  
NOTE Confidence: 0.907331009285714  
00:10:21.680 --> 00:10:24.097 We got past all those things and  
NOTE Confidence: 0.907331009285714  
00:10:24.097 --> 00:10:25.879 it required a lot of conversation,  
NOTE Confidence: 0.907331009285714  
00:10:25.880 --> 00:10:27.600 a lot of buy in.  
NOTE Confidence: 0.907331009285714  
00:10:27.600 --> 00:10:29.400 We twisted a couple of people's arms also.  
NOTE Confidence: 0.907331009285714  
00:10:29.400 --> 00:10:32.397 But we are there and we are going to  
NOTE Confidence: 0.907331009285714  
00:10:32.397 --> 00:10:35.439 have a single system wide IRIRB and I  
NOTE Confidence: 0.907331009285714  
00:10:35.439 --> 00:10:38.320 think the more of our faculty who are  
NOTE Confidence: 0.907331009285714  
00:10:38.320 --> 00:10:40.655 working sometimes exclusively in the  
NOTE Confidence: 0.907331009285714  
00:10:40.655 --> 00:10:43.639 other hospitals in the health system.  
NOTE Confidence: 0.907331009285714  
00:10:43.640 --> 00:10:45.054 You know this is a big responsibility  
NOTE Confidence: 0.907331009285714  
00:10:45.054 --> 00:10:46.456 to our faculty to make it easy for  
NOTE Confidence: 0.907331009285714  
00:10:46.456 --> 00:10:47.839 them to be in those other settings,  
NOTE Confidence: 0.907331009285714  
00:10:47.840 --> 00:10:49.702 be able to do their research and  
NOTE Confidence: 0.907331009285714  
00:10:49.702 --> 00:10:51.839 not have to be trying to navigate

NOTE Confidence: 0.907331009285714  
00:10:51.840 --> 00:10:54.400 you know a system in one of the  
NOTE Confidence: 0.907331009285714  
00:10:54.400 --> 00:10:56.290 so-called DN hospitals that sometimes  
NOTE Confidence: 0.907331009285714  
00:10:56.290 --> 00:10:59.322 were not created in a way that would  
NOTE Confidence: 0.907331009285714  
00:10:59.322 --> 00:11:01.120 feel familiar to someone coming  
NOTE Confidence: 0.907331009285714  
00:11:01.120 --> 00:11:02.920 out of a university setting.  
NOTE Confidence: 0.907331009285714  
00:11:02.920 --> 00:11:05.244 Because it sort of a very different  
NOTE Confidence: 0.907331009285714  
00:11:05.244 --> 00:11:07.106 mindset and approach about the  
NOTE Confidence: 0.907331009285714  
00:11:07.106 --> 00:11:09.130 responsibility for overseeing research  
NOTE Confidence: 0.907331009285714  
00:11:09.130 --> 00:11:11.590 that involves human beings also  
NOTE Confidence: 0.907331009285714  
00:11:11.590 --> 00:11:14.170 trying to create a single feasibility  
NOTE Confidence: 0.907331009285714  
00:11:14.170 --> 00:11:16.104 review framework for research  
NOTE Confidence: 0.907331009285714  
00:11:16.104 --> 00:11:18.396 studies utilizing YCCI resources.  
NOTE Confidence: 0.907331009285714  
00:11:18.400 --> 00:11:20.544 And what we found when we were doing  
NOTE Confidence: 0.907331009285714  
00:11:20.544 --> 00:11:23.056 the one IRB work was there were a  
NOTE Confidence: 0.907331009285714  
00:11:23.056 --> 00:11:25.408 lot of things being classified as  
NOTE Confidence: 0.907331009285714

00:11:25.408 --> 00:11:28.140 human research mostly in the other  
NOTE Confidence: 0.907331009285714

00:11:28.140 --> 00:11:29.800 hospitals that really warrant,  
NOTE Confidence: 0.907331009285714

00:11:29.800 --> 00:11:30.360 you know,  
NOTE Confidence: 0.907331009285714

00:11:30.360 --> 00:11:31.600 they were really performance  
NOTE Confidence: 0.907331009285714

00:11:31.600 --> 00:11:33.200 improvement or quality improvement.  
NOTE Confidence: 0.907331009285714

00:11:33.200 --> 00:11:34.838 They don't need full IRB review.  
NOTE Confidence: 0.907331009285714

00:11:34.840 --> 00:11:36.968 So there's a lot to do here to  
NOTE Confidence: 0.907331009285714

00:11:36.968 --> 00:11:38.839 really make this process nimble,  
NOTE Confidence: 0.907331009285714

00:11:38.840 --> 00:11:40.387 keep it focused on what it needs  
NOTE Confidence: 0.907331009285714

00:11:40.387 --> 00:11:42.189 to focus on and to take care of  
NOTE Confidence: 0.907331009285714

00:11:42.189 --> 00:11:43.975 the the other things in a in a  
NOTE Confidence: 0.907331009285714

00:11:43.975 --> 00:11:44.839 way that's more nimble,  
NOTE Confidence: 0.907331009285714

00:11:44.840 --> 00:11:46.742 less resource intense.  
NOTE Confidence: 0.907331009285714

00:11:46.742 --> 00:11:52.399 And also and we have not done this yet,  
NOTE Confidence: 0.907331009285714

00:11:52.400 --> 00:11:54.143 putting in place you know how we  
NOTE Confidence: 0.907331009285714

00:11:54.143 --> 00:11:55.299 can expand the investigational

NOTE Confidence: 0.907331009285714  
00:11:55.299 --> 00:11:57.074 drug service across the health  
NOTE Confidence: 0.907331009285714  
00:11:57.074 --> 00:11:58.760 system in a seamless way.  
NOTE Confidence: 0.907331009285714  
00:11:58.760 --> 00:12:01.065 So if your clinical trial  
NOTE Confidence: 0.907331009285714  
00:12:01.065 --> 00:12:03.370 involves you know a a  
NOTE Confidence: 0.830538126  
00:12:03.475 --> 00:12:05.440 drug or a new agent,  
NOTE Confidence: 0.830538126  
00:12:05.440 --> 00:12:06.936 this would be hard to do right now  
NOTE Confidence: 0.830538126  
00:12:06.936 --> 00:12:08.137 across the entire health system  
NOTE Confidence: 0.830538126  
00:12:08.137 --> 00:12:09.437 the way that it's structured.  
NOTE Confidence: 0.830538126  
00:12:09.440 --> 00:12:11.640 But we can make this just like we  
NOTE Confidence: 0.830538126  
00:12:11.640 --> 00:12:13.594 brought together the one IRB concept  
NOTE Confidence: 0.830538126  
00:12:13.594 --> 00:12:15.274 much more nimble for investigators.  
NOTE Confidence: 0.939394438181818  
00:12:18.120 --> 00:12:20.241 And also a big goal is enhancing  
NOTE Confidence: 0.939394438181818  
00:12:20.241 --> 00:12:21.800 discovery through biomedical informatics,  
NOTE Confidence: 0.939394438181818  
00:12:21.800 --> 00:12:23.560 data science and precision medicine.  
NOTE Confidence: 0.939394438181818  
00:12:23.560 --> 00:12:25.540 And get then gets back a  
NOTE Confidence: 0.939394438181818

00:12:25.540 --> 00:12:27.360 little bit to Harlan's issue.  
NOTE Confidence: 0.939394438181818  
00:12:27.360 --> 00:12:29.439 And trying to do all these things,  
NOTE Confidence: 0.939394438181818  
00:12:29.440 --> 00:12:30.850 increase awareness training  
NOTE Confidence: 0.939394438181818  
00:12:30.850 --> 00:12:32.730 and participation in biomedical  
NOTE Confidence: 0.939394438181818  
00:12:32.730 --> 00:12:35.199 informatics and data science research.  
NOTE Confidence: 0.939394438181818  
00:12:35.200 --> 00:12:36.840 Not just increase that awareness,  
NOTE Confidence: 0.939394438181818  
00:12:36.840 --> 00:12:39.038 but make it easy to do that,  
NOTE Confidence: 0.939394438181818  
00:12:39.040 --> 00:12:40.900 develop increased capacity for  
NOTE Confidence: 0.939394438181818  
00:12:40.900 --> 00:12:42.760 AI and digital technologies  
NOTE Confidence: 0.939394438181818  
00:12:42.760 --> 00:12:44.240 and implementation science.  
NOTE Confidence: 0.939394438181818  
00:12:44.240 --> 00:12:45.161 And you know,  
NOTE Confidence: 0.939394438181818  
00:12:45.161 --> 00:12:47.003 I think you're probably all aware  
NOTE Confidence: 0.939394438181818  
00:12:47.003 --> 00:12:48.923 that the Provost has convened a  
NOTE Confidence: 0.939394438181818  
00:12:48.923 --> 00:12:51.105 committee to look at AI and what  
NOTE Confidence: 0.939394438181818  
00:12:51.105 --> 00:12:52.995 does the what does the university  
NOTE Confidence: 0.939394438181818  
00:12:52.995 --> 00:12:54.638 want to do in this space?

NOTE Confidence: 0.939394438181818

00:12:54.640 --> 00:12:56.628 Increased partnership with the

NOTE Confidence: 0.939394438181818

00:12:56.628 --> 00:12:59.113 Yale School of Medicine Library.

NOTE Confidence: 0.939394438181818

00:12:59.120 --> 00:13:01.164 We took a big step towards this

NOTE Confidence: 0.939394438181818

00:13:01.164 --> 00:13:03.610 just in the past week or so with

NOTE Confidence: 0.939394438181818

00:13:03.610 --> 00:13:06.023 really trying to get to a single

NOTE Confidence: 0.939394438181818

00:13:06.023 --> 00:13:08.133 library platform across the entire

NOTE Confidence: 0.939394438181818

00:13:08.133 --> 00:13:10.124 health system with common resources

NOTE Confidence: 0.939394438181818

00:13:10.124 --> 00:13:12.296 available to faculty no matter where

NOTE Confidence: 0.939394438181818

00:13:12.296 --> 00:13:13.798 their privileges are right now.

NOTE Confidence: 0.939394438181818

00:13:13.800 --> 00:13:15.876 This is very arcane system that

NOTE Confidence: 0.939394438181818

00:13:15.876 --> 00:13:18.466 you know what access you get to

NOTE Confidence: 0.939394438181818

00:13:18.466 --> 00:13:20.361 library services depends on which

NOTE Confidence: 0.939394438181818

00:13:20.361 --> 00:13:22.273 hospital you have your prudential

NOTE Confidence: 0.939394438181818

00:13:22.273 --> 00:13:24.413 in as a physician you know which

NOTE Confidence: 0.939394438181818

00:13:24.413 --> 00:13:25.799 really doesn't serve us very well.

NOTE Confidence: 0.939394438181818

00:13:25.800 --> 00:13:27.640 So how do we make progress on that?  
NOTE Confidence: 0.939394438181818

00:13:27.640 --> 00:13:30.310 How do we modernize the library  
NOTE Confidence: 0.939394438181818

00:13:30.310 --> 00:13:31.944 function at places like Bridgeport  
NOTE Confidence: 0.939394438181818

00:13:31.944 --> 00:13:34.121 and Greenwich and LMH that you know  
NOTE Confidence: 0.939394438181818

00:13:34.121 --> 00:13:36.209 clearly aren't going to have the  
NOTE Confidence: 0.939394438181818

00:13:36.209 --> 00:13:37.830 resources and infrastructure to develop  
NOTE Confidence: 0.939394438181818

00:13:37.830 --> 00:13:39.636 a library like like we have here.  
NOTE Confidence: 0.939394438181818

00:13:39.640 --> 00:13:41.460 Make HIPAA compliant electronic  
NOTE Confidence: 0.939394438181818

00:13:41.460 --> 00:13:44.190 health record data more accessible to  
NOTE Confidence: 0.939394438181818

00:13:44.262 --> 00:13:46.736 investigators while you know building  
NOTE Confidence: 0.939394438181818

00:13:46.736 --> 00:13:49.737 those standards to keep it safe That  
NOTE Confidence: 0.939394438181818

00:13:49.737 --> 00:13:53.199 around usage and training and compliance,  
NOTE Confidence: 0.939394438181818

00:13:53.200 --> 00:13:54.265 redesigned the research  
NOTE Confidence: 0.939394438181818

00:13:54.265 --> 00:13:56.040 function of the so-called JDAT,  
NOTE Confidence: 0.939394438181818

00:13:56.040 --> 00:13:58.737 this joint data management group and  
NOTE Confidence: 0.939394438181818

00:13:58.737 --> 00:14:00.759 streamline decision making for data access.

NOTE Confidence: 0.939394438181818  
00:14:00.760 --> 00:14:02.116 We have a huge opportunity here.  
NOTE Confidence: 0.939394438181818  
00:14:02.120 --> 00:14:06.520 JDAT gets requests for all sorts of things.  
NOTE Confidence: 0.939394438181818  
00:14:06.520 --> 00:14:09.900 I'd say 75% of which don't have  
NOTE Confidence: 0.939394438181818  
00:14:09.900 --> 00:14:11.550 the value proposition for the  
NOTE Confidence: 0.939394438181818  
00:14:11.550 --> 00:14:13.160 resource that goes into them.  
NOTE Confidence: 0.939394438181818  
00:14:13.160 --> 00:14:13.838 In fact,  
NOTE Confidence: 0.939394438181818  
00:14:13.838 --> 00:14:15.872 they are asked to pull data  
NOTE Confidence: 0.939394438181818  
00:14:15.872 --> 00:14:17.760 and reports and information,  
NOTE Confidence: 0.939394438181818  
00:14:17.760 --> 00:14:20.840 a lot of it for trainees that those same  
NOTE Confidence: 0.939394438181818  
00:14:20.840 --> 00:14:22.880 people who requested never access it.  
NOTE Confidence: 0.939394438181818  
00:14:22.880 --> 00:14:23.492 So you know,  
NOTE Confidence: 0.939394438181818  
00:14:23.492 --> 00:14:24.920 this really needs to be cleaned up.  
NOTE Confidence: 0.939394438181818  
00:14:24.920 --> 00:14:27.280 This is a really powerful tool and it's  
NOTE Confidence: 0.939394438181818  
00:14:27.280 --> 00:14:29.238 fantastic that we have this group here.  
NOTE Confidence: 0.939394438181818  
00:14:29.240 --> 00:14:30.710 But access to that group and  
NOTE Confidence: 0.939394438181818

00:14:30.710 --> 00:14:32.040 the work that they're doing,  
NOTE Confidence: 0.939394438181818

00:14:32.040 --> 00:14:35.160 you know needs a little bit more governance.  
NOTE Confidence: 0.939394438181818

00:14:35.160 --> 00:14:36.980 Recruiting a leader to implement  
NOTE Confidence: 0.939394438181818

00:14:36.980 --> 00:14:38.800 precision medicine that's obviously the  
NOTE Confidence: 0.939394438181818

00:14:38.855 --> 00:14:40.877 Dean's office function not this group's.  
NOTE Confidence: 0.939394438181818

00:14:40.880 --> 00:14:43.085 But was in the mix of the thinking about  
NOTE Confidence: 0.939394438181818

00:14:43.085 --> 00:14:45.353 what do we need to support such a person.  
NOTE Confidence: 0.939394438181818

00:14:45.360 --> 00:14:48.090 And expanding the Yale School of  
NOTE Confidence: 0.939394438181818

00:14:48.090 --> 00:14:49.455 Medicine biorepository making  
NOTE Confidence: 0.939394438181818

00:14:49.455 --> 00:14:51.776 it increasingly accessible while  
NOTE Confidence: 0.939394438181818

00:14:51.776 --> 00:14:53.564 consolidating individual biorepositories  
NOTE Confidence: 0.939394438181818

00:14:53.564 --> 00:14:57.118 as you know an efficiency measure.  
NOTE Confidence: 0.939394438181818

00:14:57.118 --> 00:14:59.904 And to make sure that we're building  
NOTE Confidence: 0.939394438181818

00:14:59.904 --> 00:15:02.146 something that will be a a powerful  
NOTE Confidence: 0.939394438181818

00:15:02.146 --> 00:15:03.354 tool for investigators across  
NOTE Confidence: 0.939394438181818

00:15:03.354 --> 00:15:03.958 the school

NOTE Confidence: 0.923791945

00:15:06.200 --> 00:15:08.000 and finished on time

NOTE Confidence: 0.873444844666667

00:15:13.120 --> 00:15:14.458 and thanking thank you for asking

NOTE Confidence: 0.873444844666667

00:15:14.458 --> 00:15:16.352 me to talk to you about this is

NOTE Confidence: 0.873444844666667

00:15:16.352 --> 00:15:17.774 real important work a little bit

NOTE Confidence: 0.873444844666667

00:15:17.831 --> 00:15:19.623 tedious a little bit in the weeds

NOTE Confidence: 0.873444844666667

00:15:19.623 --> 00:15:21.524 but really important and it's a nice

NOTE Confidence: 0.873444844666667

00:15:21.524 --> 00:15:24.235 bright spot in my day to think about

NOTE Confidence: 0.873444844666667

00:15:24.235 --> 00:15:26.600 something other than revenue cycle.

NOTE Confidence: 0.9441025

00:15:28.640 --> 00:15:30.625 We and we very much appreciate

NOTE Confidence: 0.9441025

00:15:30.625 --> 00:15:32.090 you coming and I think

NOTE Confidence: 0.88275988

00:15:32.152 --> 00:15:34.203 you know for why wait for obesity

NOTE Confidence: 0.88275988

00:15:34.203 --> 00:15:35.513 research this is absolutely

NOTE Confidence: 0.88275988

00:15:35.513 --> 00:15:36.989 incredibly important across the

NOTE Confidence: 0.88275988

00:15:36.989 --> 00:15:39.518 system how do we get our patients

NOTE Confidence: 0.88275988

00:15:39.518 --> 00:15:41.213 in as participants into these

NOTE Confidence: 0.88275988

00:15:41.213 --> 00:15:43.399 studies and and so highly relevant.  
NOTE Confidence: 0.88275988

00:15:43.400 --> 00:15:44.928 So we thank you.  
NOTE Confidence: 0.88275988

00:15:44.928 --> 00:15:46.948 Any quick questions for Doctor  
NOTE Confidence: 0.88275988

00:15:46.948 --> 00:15:49.118 McGovern before we continue on?  
NOTE Confidence: 0.805036

00:15:51.240 --> 00:15:51.800 Yes.  
NOTE Confidence: 0.802117296428571

00:15:55.880 --> 00:15:58.785 So I was wondering like we're studying  
NOTE Confidence: 0.802117296428571

00:15:58.785 --> 00:16:01.527 obesity in the determinants of you  
NOTE Confidence: 0.802117296428571

00:16:01.527 --> 00:16:04.338 know outcome in the real world and we  
NOTE Confidence: 0.802117296428571

00:16:04.338 --> 00:16:06.720 need the real data and you mentioned  
NOTE Confidence: 0.802117296428571

00:16:06.720 --> 00:16:09.165 like we can you know use health record  
NOTE Confidence: 0.802117296428571

00:16:09.165 --> 00:16:11.199 data and and and the former speaker  
NOTE Confidence: 0.802117296428571

00:16:11.199 --> 00:16:13.615 also alluded to that that it would be  
NOTE Confidence: 0.802117296428571

00:16:13.682 --> 00:16:15.719 great to have access to these data.  
NOTE Confidence: 0.802117296428571

00:16:15.720 --> 00:16:19.650 But I think we should also then build  
NOTE Confidence: 0.802117296428571

00:16:19.650 --> 00:16:22.375 consensus on how to standardize  
NOTE Confidence: 0.802117296428571

00:16:22.375 --> 00:16:24.600 how we record data.

NOTE Confidence: 0.802117296428571

00:16:24.600 --> 00:16:27.867 But also maybe in case of you know our

NOTE Confidence: 0.802117296428571

00:16:27.867 --> 00:16:30.962 interest it would be great to have

NOTE Confidence: 0.802117296428571

00:16:30.962 --> 00:16:32.960 some very simple questionnaires or

NOTE Confidence: 0.802117296428571

00:16:32.960 --> 00:16:35.424 you know not data that would usually

NOTE Confidence: 0.802117296428571

00:16:35.424 --> 00:16:38.200 be there in in a health record. So.

NOTE Confidence: 0.802117296428571

00:16:38.200 --> 00:16:40.120 So do you, how do you see that?

NOTE Confidence: 0.802117296428571

00:16:40.120 --> 00:16:42.664 Is there, is there a possibility

NOTE Confidence: 0.802117296428571

00:16:42.664 --> 00:16:44.944 to do that throughout, you know,

NOTE Confidence: 0.802117296428571

00:16:44.944 --> 00:16:46.112 specific departments that deal

NOTE Confidence: 0.802117296428571

00:16:46.112 --> 00:16:47.280 with people with obesity.

NOTE Confidence: 0.9659933633333333

00:16:48.480 --> 00:16:51.608 So, you know, I think it's possible to

NOTE Confidence: 0.9659933633333333

00:16:51.608 --> 00:16:53.116 create, you're talking about collecting

NOTE Confidence: 0.9659933633333333

00:16:53.116 --> 00:16:55.128 a new data field from every single

NOTE Confidence: 0.9659933633333333

00:16:55.128 --> 00:16:57.116 patient and walks into the health system.

NOTE Confidence: 0.9659933633333333

00:16:57.120 --> 00:16:58.960 Yeah, I mean I think that that that

NOTE Confidence: 0.9659933633333333

00:16:58.960 --> 00:17:00.974 would that would go back point back to  
NOTE Confidence: 0.9659933633333333

00:17:00.974 --> 00:17:02.512 the governance part of this because  
NOTE Confidence: 0.9659933633333333

00:17:02.512 --> 00:17:04.620 on the one hand, you can't be asking  
NOTE Confidence: 0.9659933633333333

00:17:04.620 --> 00:17:06.145 4000 questions of patients, right.  
NOTE Confidence: 0.9659933633333333

00:17:06.145 --> 00:17:08.840 And then there's privacy and other issues,  
NOTE Confidence: 0.9659933633333333

00:17:08.840 --> 00:17:09.640 but on the other hand,  
NOTE Confidence: 0.9659933633333333

00:17:09.640 --> 00:17:11.194 we do add things all the time.  
NOTE Confidence: 0.9659933633333333

00:17:11.200 --> 00:17:12.880 Right now we ask about social  
NOTE Confidence: 0.9659933633333333

00:17:12.880 --> 00:17:13.720 determinants of health.  
NOTE Confidence: 0.9659933633333333

00:17:13.720 --> 00:17:14.704 That's relatively new.  
NOTE Confidence: 0.9659933633333333

00:17:14.704 --> 00:17:17.800 So putting these things in is a possibility.  
NOTE Confidence: 0.9659933633333333

00:17:17.800 --> 00:17:19.870 The more that our patients engage  
NOTE Confidence: 0.9659933633333333

00:17:19.870 --> 00:17:22.373 with the portal or being able to  
NOTE Confidence: 0.9659933633333333

00:17:22.373 --> 00:17:24.546 answer some of these things, you know,  
NOTE Confidence: 0.9659933633333333

00:17:24.546 --> 00:17:26.037 before they even come to their visit.  
NOTE Confidence: 0.9659933633333333

00:17:26.040 --> 00:17:27.580 Those are all tools we need to

NOTE Confidence: 0.9659933633333333  
00:17:27.580 --> 00:17:29.120 leverage to do things like that.  
NOTE Confidence: 0.9659933633333333  
00:17:29.120 --> 00:17:30.080 But I think in the end,  
NOTE Confidence: 0.9659933633333333  
00:17:30.080 --> 00:17:32.510 like adding a question that you're  
NOTE Confidence: 0.9659933633333333  
00:17:32.510 --> 00:17:34.120 going to ask every patient who comes,  
NOTE Confidence: 0.9659933633333333  
00:17:34.120 --> 00:17:34.396 you know,  
NOTE Confidence: 0.9659933633333333  
00:17:34.396 --> 00:17:35.362 there's got to be some kind of  
NOTE Confidence: 0.9659933633333333  
00:17:35.362 --> 00:17:36.200 a governance decision.  
NOTE Confidence: 0.9659933633333333  
00:17:36.200 --> 00:17:38.114 There's got to be somebody that  
NOTE Confidence: 0.9659933633333333  
00:17:38.114 --> 00:17:39.880 decides that you know there's  
NOTE Confidence: 0.9659933633333333  
00:17:39.880 --> 00:17:41.920 there's benefit from doing that  
NOTE Confidence: 0.9659933633333333  
00:17:41.920 --> 00:17:43.572 because you know all of that just  
NOTE Confidence: 0.9659933633333333  
00:17:43.572 --> 00:17:45.438 adds to the intake time etcetera.  
NOTE Confidence: 0.9659933633333333  
00:17:45.440 --> 00:17:46.992 So definitely possible and  
NOTE Confidence: 0.9659933633333333  
00:17:46.992 --> 00:17:49.320 leveraging the EMR to do that,  
NOTE Confidence: 0.9659933633333333  
00:17:49.320 --> 00:17:50.640 you know I think is is a smart  
NOTE Confidence: 0.9659933633333333

00:17:50.640 --> 00:17:52.165 thing to do when you know I think  
NOTE Confidence: 0.9659933633333333

00:17:52.165 --> 00:17:53.734 we're starting to do more and more  
NOTE Confidence: 0.9659933633333333

00:17:53.734 --> 00:17:55.258 than that especially in the social  
NOTE Confidence: 0.9659933633333333

00:17:55.258 --> 00:17:57.248 determinant space which is probably  
NOTE Confidence: 0.9659933633333333

00:17:57.248 --> 00:17:59.315 relevant to obesity research.  
NOTE Confidence: 0.9659933633333333

00:17:59.315 --> 00:18:02.666 So I think soliciting input from our  
NOTE Confidence: 0.9659933633333333

00:18:02.666 --> 00:18:03.918 clinical investigators about what,  
NOTE Confidence: 0.9659933633333333

00:18:03.920 --> 00:18:05.410 what kind of basic information  
NOTE Confidence: 0.9659933633333333

00:18:05.410 --> 00:18:07.378 would you like to know about  
NOTE Confidence: 0.9659933633333333

00:18:07.378 --> 00:18:08.716 everybody just because you know,  
NOTE Confidence: 0.9659933633333333

00:18:08.716 --> 00:18:11.120 it might be useful for a study in the future.  
NOTE Confidence: 0.9659933633333333

00:18:11.120 --> 00:18:13.092 You know, I think is, you know,  
NOTE Confidence: 0.9659933633333333

00:18:13.092 --> 00:18:14.716 has merit to consider.  
NOTE Confidence: 0.861488732

00:18:16.160 --> 00:18:18.240 Great. Thank you so much.  
NOTE Confidence: 0.861488732

00:18:18.240 --> 00:18:19.968 And we're going to keep moving  
NOTE Confidence: 0.861488732

00:18:19.968 --> 00:18:21.120 along because Dean Brown

NOTE Confidence: 0.861488732

00:18:21.180 --> 00:18:22.440 has to get to a meeting.

NOTE Confidence: 0.861488732

00:18:22.440 --> 00:18:24.888 But John, I'm sure that Doctor

NOTE Confidence: 0.861488732

00:18:24.888 --> 00:18:27.006 McGovern will answer your question

NOTE Confidence: 0.861488732

00:18:27.006 --> 00:18:28.638 after if that's OK.

NOTE Confidence: 0.861488732

00:18:28.640 --> 00:18:30.000 Thank you so much.
